School Meeting

A Public Meeting of the Ratepayers of the Monitor S. D. No. 3056, will be held in the School, at 8 p. m. on Monday Sept. 9th, for the purpose of electing a trustee.

J. Hamer, Chairman.

TRAIN SERVICE

A delegation of business men were at the station, on Monday, to meet Mr. Shinnik, deputy railway commissioner, and to discuss matters relative to the train service on this line. After half-an-hour's confab the only satisfaction the delegation got was that the company might carry express packages on each train, instead of the present tri-weekly service. He stated that chances were very slim for any change being made in the train schedule.

BUSY BIDEFORD

Everyone should take advantage of the warm days and visit the Lake as frequently as possible. The children should try and get a daily swim, making sure they do not stay too long in the water, as we hear that one Bideford lad took cramps as the result of getting too cold.

From Ottawa we read reports that all meetings where food has to be served should so arrange their times that the refreshments will take the place of the ordinary meals and not constitute extra ones. This will be readily granted in view of the serious food shortage and the necessity of conserving supplies in the face of crop failures. The ladies of Bideford Red Cross are planning a Social Evening on the occasion of the opening of the new Station.

They will no doubt serve a "hard-up" meal, with nothing cheap but the price, and a special dish will be supplied by the town sportsmen.

We hear the Bideford Auto Club is rivaling that august body, the School Board, who offered a cent a tail for gopher narratives. An autoist in town recently ran over the pig that won't stay at home. There was bloodshed and bellowing, and in order to save the pig's life, as the Irishman says, they cut its throat to complete the job. The rest of the pigs were promptly shipped lest further evils result. A prominent member of the Club offers a silver medal for the largest number of pigs' tails handed in by the furious Ford drivers, between now and the Station supper. As there is a promising young family of nine piglets, now in town, we prophesy some excitement and some squeals.

The tennis court has been moved and the young folks of the town are to be seen every fine evening with racket and ball calling "Love" to each other.

A bunch of Bideford boys are at work on the railway here and at Allan's Camp, 40 miles away. We hear they like the work and find the food, etc., all O. K.

The recent rains are making quite a difference to the crops and gardens. Some of the wheat fields should thresh out 20 or more bushel to the acre.

The annual Financial Statement of the Compeer Mission, for the year ending May 1918, are to hand. The total offerings from Compeer, Wheat-sheaf, Charenton and Bideford were \$974.95. Thanks are given to all who subscribed, and each one is asked to do his best to sustain Christian work in the community.

DO YOU DANCE?

The Monitor Brass Band will hold a dance every second Friday in the Band Hall. Admission 50 cts. Next Dance Sept. 6th.

POINTERS

The less a man knows the more suspicious he is.

When your friends are not Trumps it is up to you to discard them.

Some men are so busy looking for a position that they have no time to work.

Any man can make his wife do anything she wants to.

No amount of voice culture will make a fat man stop snoring in his sleep.

An amateur may be a person who has entered the first stage of ignorance.

Wings of riches enable people to fly up and roost on the highest branches.

Few women make successful lawyers. They are unable to break themselves off the habit of giving free advice.

A woman doesn't attempt to manage her husband—she feeds him and trusts to luck.

The average girl is a queer creature. She will make fun of a young man one day and marry him the next.

A woman either adjusts herself to her surroundings, adjusts her surroundings to suit herself—or gets a divorce.

What Will You Do For Help?

FARM help is scarce, but this condition can be relieved to a marked degree by using machines that accomplish more work in a given time with less man power.

Why should the farmer cling to horses—a slow, expensive means of power when every other business is adopting the truck and thereby reducing the cost of hauling, speeding up deliveries, and saving for human needs the food that the horses would otherwise consume?

The motor driven truck can work constantly at maximum load under the burning summer sun, or in the coldest weather. Unlike the horse it needs no rests while working; it eats only while in actual use, and when the day's work is done it requires very little attention, and leaves you free for other "Chores" about the place. Then, it can be housed in one-quarter the space of the horses, wagon and harness it replaces.

It is a mistaken idea that a truck is useful only for driving upon paved roads. The Ford can be driven all over the farm, and used for hauling grain, potatoes, fruit, roots, fertilizer, wood, stock, milk or any other product. The speed it travels, the time it saves, and its low upkeep cost appeal very strongly to all users of the Ford Truck. If you need help, order your Ford One Ton Truck today.

FRIDAY, AUGUST the 30th, 1918

Note and Comment

The total number of enlistments in the Canadian Forces from the beginning of the War to June 30th 1918, including those under the Military Service Act, was 552,601, and of this number 383,523 had gone overseas by June 30th. The totals, each year, going overseas were: before Dec. 31, 1914, 30,909; Calendar year 1915, 84,334; " " 1916, 165,553; " " 1917, 63,536; Jan. 1st to June 30, 1918, 39,101.

Of the troops who had gone across, 26,537 were recruited by the Military Service Act.

The total casualties were 159,084, made up as follows:

Killed in action	27,040
Died of wounds	9,280
Wounded	113,007
Died of disease	2,257
Prisoners of war	2,774
Presumed dead	4,342
Missing	384

Since June the casualties have been increased by about 12,000.

About 25,000 of the sick and wounded have returned to the front for further service, and 50,000 have returned to Canada wounded, medically unfit or unavailable for various reasons.

Early this year there 150,000 Canadians in France, of which 90,000 were fighting troops, the balance being in the medical, railway, lumbering, and other organizations of the army.

About 12,000 troops are required in Canada for home defence, in fortresses, internment camps, canals, etc. Canada also furnishes a garrison for St. Lucia, West Indies, and has a number of men serving in Palestine and Macedonia.

There are 196 different occupations being taught to the returned soldiers so as to enable them to take their place in the commercial and industrial life of the country.

Up to May, 1918, 24,415 men had been granted pensions.

Owing to the increased cost of newsprint and all the other materials that go to make up a newspaper, we have decided to cut down the size of the 'News', for a time at least or altogether and will only publish a four page weekly instead of the usual eight pages.

The reason that the office does not seek the man, more frequently, is that before the office can rise up and get going a bunch of candidates are kneeling on its chest.

CENSORED

When Mrs. Malone got a letter from Pat. She started to read it aloud in her flat. "Dear Mary," it started, "I can't tell you much, I'm somewhere in France, and I'm fighting the Dutch. I'm choking with news that I'd like to relate, But it's little a soldier's permitted to state. Do ye mind Red McPhee? Well he fell in a ditch An' busted an arm, but I can't tell ye which, An' Paddy O'Hara, was caught in a flame An' rescued by—faith, I can't tell ye his name. Last night I woke up with a terrible pain: I thought for a while it would drive me insane, Oh, the stuff in I had was most dreadful to bear! I'm sorry, my dear, but I can't tell ye where."

The Food Board asks private householders to still further restrict their consumption of sugar, and to use a greater proportion of brown sugar.
